

God's Hands Reaching Haiti Spring 2025

Working together as the body of Christ to reach the hurting souls of Haiti

"If my people who are called by my name, will humble themselves and pray, and seek my face, and turn from their wicked ways, then will I hear from Heaven and forgive their sin and heal their land. II Chronicles 7:14

Family Update

"A man's heart plans his way, But the Lord directs his steps." Proverbs 16:9

In November 2024 all flights to Haiti were shut down for at least 30 days. We were not able to travel in December as we had considered, The 'no travel from the US to Haiti' keeps getting extended and the Port au Prince airport continues to be closed due to gang violence. There are other flights in the Caribbean that now travel from Florida to Northern Haiti. We will plan to use this route when we are able to return. While it has been hard being away from our family in Haiti we have a lot to be grateful for. While here for an extended period of time we have been able to work on some paperwork that needed to be done. Cenofa has finished his paperwork and it is turned in to immigration. After we get a final response we will pray about when to return to Haiti. Our young children are blessed to be getting to know family and life in the States; meanwhile our children in Haiti are being well cared for by our friends Sadrac and Ruth. They have been studying French, doing some English schooling and learning verses in all three languages. We are humbled how God has been providing for us while we are here in the States. We continue to send all of GHRH donations to Haiti for the continued ministry in Montrouis as well as the growing work in Les Cayes.

We are thankful to have faithful Christians who are continuing the Lord's work in Haiti while we are away. They found a few new testaments in Les Cayes and gave them out to some neighbors and acquaintances at Christmas. We have since sent a case of New Testaments to them and they have been sharing them with the neighborhood as they come to get water from our well. Many don't have any Bible in their home and are very grateful to receive a Bible of their own.

Gardening God's Way

In Les Cayes we are assisting families who are already farming to be able to have bigger and better crops, to be better able to feed their families and have enough to sell. So far we have eight acres of land ready to be farmed this will assist nearly 20 families. It will cost \$1,125 per acre. If you feel the call to give please don't hesitate, as the time is crucial. US AID to Haiti has pulled out of Haiti and food imports are becoming more difficult. As US AID was one of the main food providers for Haiti this makes food supplies low. It doesn't have to be the end, it could eventually be a good thing for Haiti to once again support itself, but it will be hard for awhile. Now is the time for the Haitian people to step up, we can help those farmers to grow more to support their families and their communities. Any amount of donation will make a difference. You can be a monthly sponsor or a one time contributor. Thank you for answering the call to assist Haiti in supporting itself. We are so grateful for those that God has led to work along with us and be God's Hands Reaching Haiti.

*Please be in prayer for our ministry in Montrouis, our foster children and those caring for them as well as the farming program, that we can lead many to the Lord and encourage those who are already believers.

We are now able to ship supplies to Haiti, if anyone is interested in sending items or helping pay shipping expenses for supplies we are sending, please contact us or speak with Bonita. God Bless!

Please send us your email address so we can send more frequent newsletters through email.
